

# 10 TIPS FOR SUCCESS TRADING COVERED CALLS

1. Use covered calls to grab quick cash, they are Safe, Repeatable, & Easy to understand.
2. Don't get caught naked!
  - a. Always buy the stock FIRST... Then sell the call option.
3. Focus your trades on quality stocks - Do your diligence.
4. Diversify your trades by industry and expiration date.
  - a. Don't bet it all on one trade!
5. When picking options don't just look at cash - focus on yield.
6. Stick to options with strong volume and open interest.
7. Use limit orders on wide bid ask spreads.
8. Leaps look juicy, but weekly or monthly options often offer better yields!
9. Scale your account by buying another 100 shares and selling an additional call option.
10. Let your options expire or get exercised...
  - a. It's rarely worth the headache to roll an options trade.
